THE TANTALUS ROAD.

The Introduction of the Billthe Minister of Interior.

Legislature, what may be termed a per cent, or about the same as that conditional bill was passed by that of the Punchbowl road. After the body of law-makers. The bill was introduced as a petition, signed by road at the top of the mountain, it some sixty prominent citizens of can then be determined whether or Honoluln, and presented to the not there will be a large enough Legislature by Representative Rosa, Interior assurance if the provisions September 1st, 1890. A committee of the bill can be fully carried out. was appointed to consider the advisability of setting apart in the Appropriation Bill a sum of money necessary to carry out the provisions of the bill. The committee reported bracing as is desirable for a summer in favor of inserting a clause in the outing. The site selected is one of Appropriation Bill granting the amount asked. In the bill it was provided that, upon certain conditions, an appropriation of \$17,500 city and surrounding country. There should be made for the opening of a carriage road to the top of Tanta-Ins Mountain. The bill as passed by of obtaining a site should not delay ing from Illness, nothing better can be the Legislature was drawn in such a manner that it rather bandicapped anthorities. the Interior Department in its endeavors to carry out the provisions. No warrants could be drawn from the amount appropriated unless the Minister of Interior was satisfied that there would be a surety that a sufficient number of lots of Government land could be sold to bring into the Treasury enough money to the morning of Monday, 13th inst. The contract Japanese laborers of pana, James Davis, Oofty Goofty, John cover the \$17,500 appropriated by the Government, or over that amount.

Owing to the comparatively few people who have visited this local. The manager having ascertained ity, little is known by the public of the advantages of the sites to be offered for sale in lots to suit the purchaser. There being no trail safely to travel to the summit, few ted. It is said some of the officers

No part of the grade of the road During the late session of the if finished, will exceed six or seven lots have been surveyed at available and convenient places along the

camping lot at an elevation sufficient the best that can be found in any near vicinity of Honolulu, within easy reach, and having the beauteous advantage of overlooking the harbor, Tell us concisely which ailments The is very little reason to doubt the project's meeting with success, and those who desire to take advantage in making it known to the proper prescribed.

Labor Trouble.

writes that "there was a singular The contract Japanese laborers of the Reciprocity Plantation, 150 in number, started off to complain of Brown, L. Crozier. the delay of payment of their wages. cared to make a trip of inspection. | and most of the laborers of all na-

HOW IS Your watch? Ten to one you never

think about it. It is slow to-day. You set it ahead. It is fast to-morrow you set it back, and wonder why it does not keep

time.

How can it? The mere fact of touching the regulator one way or another does not compel the watch to do its work properly, if something is wrong inside. The delicate machinery is subjected to constant wear, pivots are wearing one side of the pivot hole, causing the wheel to be forced out of position; and running in an eccentric manner: other little matters need attention. How can it be otherwise; when you neglect your time piece, and think of it only when it refuses to go. Have it done in time and save expense and perhaps your watch.

Remember we are successfully altering American key winders into stem winding watches; we are also demagnatizing watches that have become useless by coming in contact with electricity, and are making good time-keepers of them again. H. F. WICHMAN.
